

**Graduate with a
Provisional Patent &
License to Technology
while an Undergraduate
Student at RPI!**

**Have you invented something
while attending RPI?***

You can graduate from Rensselaer with:

- A Provisional Patent Application
- A Company
- A Worldwide license to the technology that you created while at Rensselaer
- An opportunity to enter into business plan competitions to raise funding
- Opportunity to grow your company in the Rensselaer Incubator Program

New program terms:

- Student or company pays provisional patent cost and worldwide licensing fee (total= \$435)
- Student or student's company is responsible for patent prosecution and costs
- No minimum annual fees are payable to RPI
- No royalties are payable to RPI until company reaches annual gross sales of \$1,000,000 or more! Then a 1% royalty on gross sales is due RPI

**For details: visit the Office of
Technology Commercialization in the
J Building or call x6023.**

* Technology must have been conceived without any co-inventorship with an RPI employee and outside of any grant funded class or research program at RPI, but with "Significant Use of Rensselaer Support".

OTC staff will advise on disclosure and initial application processes. Always protect your IP! See brochure "Common Sense Guidelines for Maintaining an Inventor's Notebook".
